

# 2020 FALL SCHOOL INITIATIVE

## PLANNING FOR YOUR STUDY THIS SEPTEMBER

We at MIA are committed to our student's safety and learning. We have been working hard to implement a school-wide strategy that will keep our students and staff safe in the Fall while focusing on student learning.

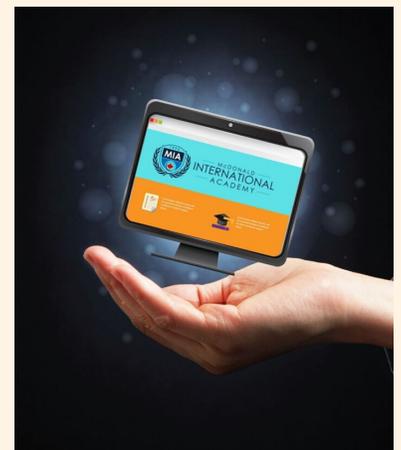

We have developed a plan for learning for September 2020 that will give students flexibility, options and the confidence to study safely at MIA. We are pleased to introduce our plan to implement a **Live Hybrid Classroom Instruction at MIA for the Fall 2020 Semester.**

### WHAT DOES THIS MEAN? - HERE'S AN OVERVIEW:

- There will be **LIVE daily in-person instruction on campus** with a reduced student capacity in each classroom to allow for proper social-distancing.
- Strictly enforced cleanliness protocols such as **mask-wearing, daily temperature checks and cleaning stations** at each desk have been designed in accordance with the government to ensure safety at all times.

- Students who are abroad or would feel more comfortable to stay at home can choose to study online and **log in daily LIVE** to Zoom and participate in the daily lessons. This provides students with a real classroom experience with live teacher instruction and interaction with fellow students.
- We understand that sometimes our students will be unable to join us live. Therefore, **recorded sessions of each live class will be uploaded online**, so that students can watch lessons at their convenience.
- This means students have the **choice and flexibility** to study in the way that is most convenient for them and makes them feel the most **comfortable and safe.**

Feel confident in choosing MIA for the Fall 2020 Semester as we are 100% committed to our students and strive to make this experience less difficult as we work to put our students' learning and safety first.

**Together or apart, we are in this as one.**
